

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PALO ALTO, MAYFIELD, STANFORD, RAVENSWOOD AND EAST PALO ALTO

The government census in 1920 gave Palo Alto a population of 5,900. The directory canvass, supplemented by the health department work in 1920 showed that in the same territory that was covered by the government enumerators there were more than 6,100 people. Since the national census was taken the population has further been increased by annexation of outlying territory, so it is believed Palo Alto's population is fully 9,000. In the Palo Alto Acres district and other territory tributary to Palo Alto are 2,000 more people. Mayfield and Stanford, also more or less tributary to Palo Alto, add 4,000 more, making a total population in the district covered by this territory fully 20,000. Palo Alto is the largest city between San Francisco and San Jose. It is the business center of this district. Mayfield is a residence and canning center. Stanford University and five private schools, along with the public schools make it an educational center. San Francisco is 32 miles northwest and San Jose 17 miles southeast. Steam and electric railways run to San Jose; bus lines and steam railways run via Palo Alto from San Francisco to San Jose.

The present city charter of Palo Alto went into effect July 1, 1909. It was formulated by a board of freeholders composed of Marshall Black, C. E. Jordan, H. W. Simkins, C. B. Wing, Fernando Sanford, E. C. Thoits, C. B. Stinson, J. T. Coulthard, G. J. Carey, Walter E. Vail, B. P. Oakford, S. W. Charles, Stanley Forbes, C. S. Downing and A. N. Umphreys. The governing body of the city is the council composed of fifteen members, each elected for a term of six years and five retiring every two years. All executive officers are selected by the council. Subordinate boards look after details of administration, such as public works, public safety and the library, community center, city planning and commercial amusements. Appointive officers serve during the pleasure of the council, but the custom has become established that such appointive officers are reappointed annually and have served almost continuously for most of the time since the charter was adopted.

Among features of public policy embodied in the charter are

the initiative, referendum, recall, prohibition of manufacture and sale of alcoholic liquors and public ownership of utilities. The water, gas and electric lighting utilities are owned by the city, a garbage incinerator has been installed and is now in operation.

STREET DIRECTORY

In emergencies this house list will be found specially useful. First look in the telephone book for the person wanted. If he cannot be reached directly that way and the occasion demands quick action look him up in the alphabetical list of names in the city directory. Then turn to this list of houses and find who lives next door or near at hand. Then consult the telephone book, call up the neighbor and have a message sent to the person wanted. This method will save a great deal of time, but should be followed only when the need is urgent.

Streets in Palo Alto parallel the railroad tracks from northwest to southeast. Avenues run at right angles to the streets from southwest to northeast. This arrangement places all residences in such positions that the sun shines into them at some time during the day. Streets and avenues follow:

Addison avenue, northeast from Alma street to Channing, 10 blocks.

PALO ALTO

The system of house numbering in use in Palo Alto was devised and arranged by H. W. Simkins while town clerk. It takes the Palo Alto tree for its base and meridian, and each full block is a unit of 100. The numbers from 1 to 99 are discarded, to be used later when the avenues may be cut through to the county road. Two numbers are allowed for each 25 feet on each side of the street, the even numbers on the right and the odd numbers on the left side of the street. The half numbers are disregarded, except that fifty numbers are given to one side and fifty to the other in that block. Every row of blocks in either direction would have the same index numbers, as 500, 700 or 1200 block, and the index number would tell its distance in blocks from the base line.

MAYFIELD

MAYFIELD

The town of Mayfield is one of the oldest in this part of the county. It was organized long before Palo Alto was founded, but the making of Palo Alto the university town gave it a great advantage. Mayfield's population increases very slowly. Most of the people there are either old residents or natives. City officials are as follows:

Board of Trustees—George B. Moore, chairman; Allison Peacock, Steve Anderson, Bert R. Holston, Joseph A. Gemur.

Committees of the Board of Trustees are made up as follows:

Lights and Streets—Steve Anderson, George B. Moore.

Water—Gemur, Peacock.

Building—Anderson, Moore.

Parks and Amusements—Gemur, Holston.

Finance—Gemur, Holston.

Clerk—S. M. Cuthbertson.

Treasurer and Water Collector—R. L. Pitcher.

The appointive officials are:

Marshal and Tax Collector—F. D. Minaker.

Town Engineer—Charles E. Moser.

Town Attorney—Granville N. Wood.

Town Recorder—Bernard Mayer.

Water Engineer—P. A. Crowley.

Health Officer—Elsie G. Roberts.

Librarian—E. J. Roberts.

Traffic Officer—Orville Overturf.

Mayfield School

Mayfield's school district embraces a territory fully four times as large as the town itself. Two commodious buildings are provided for the children of grammar school grades. Members of the Board of Trustees and teachers are as follows:

Trustees—George O. Call, Mrs. Pearl Shreve, Sherman Van Gorden, clerk.

Teachers—E. M. Knight, principal; Annabel Mitchell, fifth grade; Helena G. Hansen, seventh grade; Mrs. Viola B. Daugherty, first grade; Janet A. Thain, second grade; Ethel Topham, fourth grade; Dorothy Crippen, third grade; Jessie Sommerville, sixth grade; Mrs. Mildred Howe, kindergarten; Frances Moore, first grade; Irma Emery, eighth grade.

Mayfield Churches.

Catholic—Church of St. Aloysius—Rev. Father J. P. Cava-

naugh, pastor. Services every Sunday. Four hundred block, Palo Alto.

Methodist Episcopal Church—Rev. J. C. Gillette, pastor. Sunday services: Sunday school, 9:45 a. m.; preaching, 11 a. m. and 7:30 p. m.; Senior League, 6:30 p. m. Midweek prayer meeting, Wednesday, 7:30 p. m. Official board, first Tuesday of each month. Sunday school, second Tuesday of month. Ladies' Aid, second, fourth Thursdays. Men's Community Club, second, fourth Fridays.

Many of the houses in Mayfield are not numbered, a condition which makes it impossible to give more than the name of the street upon which the house is located.

STANFORD

This directory aims to give only the names of people actually living in the places chosen, so a great many names of faculty members are omitted from this list and the names of others who actually live on the campus are included. Faculty members and the members of their families living in Palo Alto and Mayfield are included in the lists for those places. People connected with the university but not living in any one of the three places are not included. The names of Stanford University people are taken from the directory published by the university and corrected to January. The other names were secured by personal canvass. Thanks are herewith extended to the university authorities for many courtesies.

Museum of Fine Arts and Art Gallery

The Museum of Fine Arts is situated north of the chemistry building and is composed of a magnificent lobby designed by Tiffany, and sixteen large rooms containing exhibitions of ancient and modern art and other objects. Among these collections are the following: The Ikada collection of oriental art, the Cesnola collection of Egyptian ware, Indian collection of handicrafts, ancient Egyptian collection, museum collection of Leland Stanford, Jr., Stanford collection of paintings and statuary, Timothy Hopkins collection of paintings and numerous other collections secured in every part of the world by Mrs. Jane L. Stanford and other donors. The museum is open from 10 a. m. to 5 p. m. Admission 25 cents.

The Thomas Welton Stanford art gallery is situated north of the new library and is composed of four galleries containing paintings by prominent artists and collected by Thomas Welton Stanford, a brother of the founder of the university. A changing exhibition of paintings and other art objects takes place monthly in one of the galleries, permitting the community to view the best art material available in the United States. The gallery is open every day of the week from 10 a. m. to 5 p. m. and admission is free to the public.

Stanford Memorial Church

The Memorial Church erected by Mrs. Stanford in memory of her husband is considered the finest building of the kind in

America. It is rich in mosaics, art glass windows, beautiful carved stone, and architecturally it is a gem. It richly rewards a visit. Services are held there every Sunday morning during the school year. Free organ recitals are given Sunday, Tuesday and Thursday afternoons. The church is open for visitors every day in the year.

RAVENSWOOD and EAST PALO ALTO

This community was until recently commonly known as Runnymede. That part adjoining North Palo Alto (Menalto avenue being the boundary line), extending to Cooley avenue and including the O'Connor tract and Woodland place, is now known as Ravenswood, and the remainder, comprising the first and second additions to Runnymede, is now called East Palo Alto.

This community is located in the southwestern corner of San Mateo county, adjoining the northerly city limits of Palo Alto. It is a community of small homes devoted to poultry and berries and has become well known as an example of intensive agriculture. Mail is received by rural carrier from the Palo Alto postoffice. It is not incorporated.

Ravenswood school district includes also North Palo Alto and Menlo Oaks. There is an enrollment of more than 180 pupils. Six teachers are employed. Trustees are L. H. Brown, E. R. Lam and Mrs. J. A. Cameron.

Community Organizations

Forty-niner Club—Devoted to the general interests of the whole community. President, Dr. E. R. Tait; secretary, Mrs. George Hand; treasurer, Frank Hand.

Girl Scouts—Red Rose Troop, Mrs. Paul Boyer of North Palo Alto, leader.

Gospel meetings are held Thursday evenings at various homes, Gilbert Findley being in charge.

The following list of names, etc., was corrected up to December 21, 1924. As houses are not numbered the only means of identifying residences is to give the name of the street whereon located, together with the rural free delivery box, when available. Some residents receive their mail in boxes at the Palo Alto office.
